

WARZONE: ATLANTA 2018 Model & Conversion Policy

Playing exciting, atmospheric games with painted miniatures is an important part of the Warzone: Atlanta experience, and a critical component of our “total hobby” approach to the game. With this in mind, all miniatures in your army must be fully assembled, painted and based. Each model must completely and accurately represent its entry on your army roster (including all weapons and equipment).

If you have used different faction keywords between Detachments, there must be a clear visual difference between each Detachment. For example, if you have a Tyranid army with Detachments from both Hive Fleets Kraken and Kronos, the models in each Detachment must be clearly distinguishable from one to another such as a different colored carapace. If you are unsure whether something is clearly distinguishable, contact us at WarzoneAtlanta@gmail.com.

Finally, you need to contact us to let us know about any conversions you are planning on using, and provide us with photos of the models in question where possible. Our goal is to ensure that everything is super clear for your opponents to minimize any confusion which could arise during games. E-mail details and photos to WarzoneAtlanta@gmail.com.

To protect everyone’s experience, we will politely ask you to remove any models that don’t meet these standards.
